Basics Of HTML and CSS - By Open Weaver [[link](#)]

Basics Of JavaScript - By Open Weaver [[link](#)]

Data Structures and Algorithms In Java - By Great Learning [[link](#)]

Java Programming - By Great Learning [[link](#)]

Projects

Personal Portfolio : I have created a Personal Portfolio website which is fully responsive where user can see my all the details, download resume and can also connect with me, by the help of contact form. I have used HTML, CSS and Javascript to create this website.

Astrology Website : I have created an Astrology website using HTML, CSS, JavaScript and PHP using which a user can see their monthly and yearly horoscopes, Match Horoscopes and more. The aim of the project is to connects the users to the spirituality.

Piano Website : I have created a website related to Piano using HTML, CSS, JavaScript. I have used Node.Js to fetch the data from Youtube API. In this website, user can watch the tutorials and download the song notes. I also provided the payment gateway.
